

Thank you

Thank you for purchasing this Xenexx headset. We are sure you will enjoy it! This manual contains instructions for setting up and using your new headset.

Your Xenexx headset consists of

- | | |
|--------------------|---------------------------|
| 1 Headband | 6 Microphone |
| 2 Stabilizer T-bar | 7 Jabra QD plug or |
| 3 Speaker | 8 Plantronics QD plug |
| 4 Headset cord | 9 Foam ear cushion(s) |
| 5 Microphone arm | 10 Leather ear cushion(s) |

www.xenexx.net

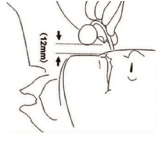

Wearing your headset

To wear the headset, put the headband on with the ear cushion(s) covering your ear(s) comfortably. Adjust the length of the headband as needed.

The Monaural Xenexx XS820 headset can be worn over either left or right ear. Simply rotate the microphone boom by 180 degree in upward direction to change between left and right ear. Please note: microphone booms on the XS820 and XS825 are NOT designed to rotate by 360 degrees.

Position the microphone approximately 12mm from your lower lip. Volume of voice and amount of audible background noise depend on a correct positioning of the microphone.

Quick disconnect plug

Xenexx Headsets are available with choice of Plantronics (QD) or Jabra (QD) quick disconnect plugs. Plantronics QD plugs are marked with the letter P on the connector whereas Jabra QD plugs are marked with the letter G. When purchasing a connection cord, please ensure that the quick disconnect plug is matching with the plug on your headset.

User Manual

Mono / Duo Headset XS 820 / XS 825

Taking care of your headset

Periodically clean the ear cushion(s), microphone and microphone boom, cable and headband with a moist soft tissue. We recommend every new headset user to change ear cushions and to thoroughly clean other parts of the headset to make sure hygiene is perfect.

Warranty

Xenexx headsets come with a one year warranty. If it appears that the product or any part thereof contains a defect in materials or workmanship, please bring your receipt and the headset to your retailer for repair. Replaced or repaired components, subassemblies or units and spares are warranted for ninety (90) days or the balance of the original warranty period, whichever is longer. This warranty is invalid if the unit is tampered with, subject to misuse, negligence or accidental damage.

With our huge choice of connection cords you can connect your Xenexx headset to virtually any analog, IP phone or computer. Consumables such as ear cushions can be replaced easily. You can find accessories and spares for your headset at www.xenexx.net.
