

Replacement foam ear cushions

Xenexx ear cushions are available in full foam or donut style and are made from high quality soft foam. They have a diameter of 52mm allowing a perfect fit. Each package comes with 2x earpieces allowing the use with mono and binaural headsets.

Color code your call center agent's headsets to have an easy overview of different departments such as inbound and outbound groups, agents working for a certain customer, by shift, job position or simply let your front line agents make a fashion statement they will love! Currently ear cushions are available in black, green, blue, purple and red.
